

T&G Industries Pty Ltd
has more than 30 years experience in
providing manufactured solutions for a
wide variety of industries.

Our dedication to quality and innovation
has secured us repeat business in the
automotive, whitegoods, medical,
communications, furniture, shop fitting,
and allied industries markets.

OUR VISION

To further develop and strengthen
our existing relationships and continue
to provide clients with unsurpassed
quality in customer service and
product manufacture.

Through dedicated programs of research
and development and the ongoing purchase
of new machinery, equipment and technology
we continue to motivate and train our
valued staff members and encourage
them to succeed in delivering exceptional
results in all areas of our business.

injection moulding

> Tool Making

T&G industries is a manufacturing company in which engineering and tool making is at the core of it's operation.

Highly skilled and experienced craftsmen deliver precision tooling on time, without delay.

T&G's investment in the latest Nissei injection moulding machines ensures accurate moulded product at competitive prices.

QUALITY SYSTEMS

> Robotic Welding

Fully automated CIG precision.

OUR MISSION

To achieve excellence in all aspects of our operations.

To stay competitive, and be customer focused.

QUALITY ASSURED

T&G is a Quality Endorsed Company. If you need quality, on time, on budget, make T&G Industries your first choice.

> Custom Design

Our experienced design team use the latest 3D CADKEY linked design system to create tooling to your specific requirements.

We offer a single site design, tooling and manufacturing environment.

T&G's expertise in injection moulding comes from sound manufacturing experience. The implementation of automated auxiliary equipment enables T&G to produce quality product efficiently.

SKILLED CRAFTSMEN

> Metal Pressing

All product is controlled through our integrated computerised manufacturing systems.
